

Superintendent's Evaluation

As required by the Omnibus School Code legislation, Act 82 of 2012, the Blue Mountain School Board of Directors is required to post the mutually agreed upon objective performance standards included in the contract of the superintendent. The performance assessment of the superintendent occurs in May of each year.

The Blue Mountain School District Board of School Directors participated in an evaluation process of the district superintendent. Eight of nine members were present for the evaluation process. The domains in this evaluation were: 1) Student Achievement, Readiness and Success, 2) Operations, Planning and Finance, 3) Culture, Communication and Engagement, 4) Data and Technology, 5) Safety and Security, 6) Systems of Accountability. The results of the evaluation reveal that the superintendent has achieved the level of Distinguished in all six domains.

Anne Usuka, President
Board of Directors
Blue Mountain School District
