Board of School Directors
Blue Mountain School District
Orwigsburg, Pennsylvania

We have performed the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements, for Federal Awards (Uniform Guidance) of the Blue Mountain School District for the year ended June 30, 2020. Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements, for Federal Awards (Uniform Guidance) indicates that the auditee is responsible for ensuring appropriate submission of the audit reports to appropriate government officials.

The reporting packages must be submitted no later than 30 days after you receive our Single Audit Report but no later than nine months after the year end (March 31, 2021).

The Single Audit was done to fulfill the requirements of the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements, for Federal Awards (Uniform Guidance). It entailed: (1) an audit of the general purpose financial statements and our opinion thereon; (2) an examination of the Schedule of Expenditures of Federal Awards and our opinion thereon; (3) a review of the internal control structure based solely on the understanding obtained as part of the audit of the general purpose financial statements; (4) a review of the internal control structure made as a part of the audit of the federal financial assistance programs; (5) a review of compliance based on an audit of the general purpose financial statements in accordance with Government Auditing Standards; and (6) a review of compliance with laws and regulations related to the federal financial assistance programs and our opinion thereon.

When filing the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements, for Federal Awards (Uniform Guidance) and the Data Collection Form with the agencies listed on Page 2, the District must enclose the appropriate number of reports as listed.

INDEPENDENT AUDITOR'S REPORT

Board of School Directors
Blue Mountain School District
Orwigsburg, Pennsylvania

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Blue Mountain School District, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Blue Mountain School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Blue Mountain School District, as of June 30, 2020, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Prior Period Adjustments

As described in Note 10 to the financial statements, as of June 30, 2019 the District determined it had not allocated the District's Pension and OPEB assets and liabilities between its Governmental and Business-Type Funds as required by GASB 68 in its Entity-Wide Statement of Net Position (Deficit). During the current year, the District, (with which we concur) recorded the necessary adjustments which decreased its beginning Governmental Activities Unrestricted deficit by \$1,899,079 and increased its beginning Business-Type Activities Unrestricted deficit by (\$1,899,079). Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion on pages 9-20 and the schedule of the District's proportionate share of the net pension liability, the schedule of the District's contributions, the District's proportionate share of the net OPEB – PSERS liability, the schedule of the District's contributions - OPEB - PSERS, the schedule of the District's proportionate share of the OPEB liability and the schedule of District contributions – OPEB on pages 70-75 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Supplemental Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Blue Mountain School District's basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 10, 2020, on our consideration of the Blue Mountain School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Blue Mountain School District's internal control over financial reporting and compliance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of School Directors
Blue Mountain School District
Orwigsburg, Pennsylvania

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Blue Mountain School District, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Blue Mountain School District's basic financial statements, and have issued our report thereon dated December 10, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Blue Mountain School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Blue Mountain School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Blue Mountain School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

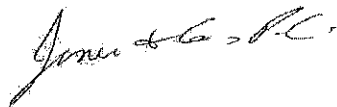

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Blue Mountain School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Board of School Directors
Blue Mountain School District
Orwigsburg, Pennsylvania

Report on Compliance for Each Major Federal Program

We have audited the Blue Mountain School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Blue Mountain School District's major federal programs for the year ended June 30, 2020. Blue Mountain School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Blue Mountain School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Blue Mountain School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Blue Mountain School District's compliance.

Opinion on Each Major Federal Program

In our opinion, the Blue Mountain School District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

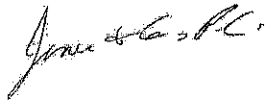

Report on Internal Control over Compliance

Management of the Blue Mountain School District, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Blue Mountain School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Blue Mountain School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

BLUE MOUNTAIN SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
FOR THE YEAR ENDED JUNE 30, 2020

The discussion and analysis of Blue Mountain School District's financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2020. The discussion and analysis should be read in conjunction with the District's accompanying financial statements, which immediately follow this section.

The Management's Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued in June 1999. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

FINANCIAL HIGHLIGHTS

- Net assets increased by \$4,692,191, which includes a profit of \$2,793,112 along with a prior period adjustment of 1,809,079 to adjust Pension and OPEB liability at 7/1/2019. Program revenues accounted for \$9,244,240 or 20.28% of total revenues, and general revenues accounted for \$36,333,785 or 79.72%.
- The Board increased Real Estate taxes by 1.147 mills, but did not increase Occupation Assessment Taxes for the 2019/2020 fiscal year. The district showed an increase of \$470,180 or 1.93% over the prior year's tax revenues.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts – management's discussion and analysis (this section), the basic financial statements, and supplementary information. The basic financial statements include two kinds of statements that present different views of the District. The first two statements are **District-wide financial statements** that provide both short-term and long-term information about the District's overall financial status. The remaining statements are **fund financial statements** that focus on individual parts of the District, reporting the District's operations in more detail than the District-wide statements. The governmental funds statements explain how basic services such as regular and special education were financed in the short-term as well as what remains for future spending. Proprietary fund statements offer short and long-term financial information about the activities the District operates like a business, such as food services. Fiduciary fund statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others, such as student activity funds and scholarship funds.

The financial statements also include notes that explain information in the statements and provide more detailed data.

BLUE MOUNTAIN SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
FOR THE YEAR ENDED JUNE 30, 2020

District-wide Statements

The District-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Assets includes all of the District's assets and liabilities. All of the current year revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two District-wide statements report the District's net assets and how they have changed. Net assets, the difference between the District's assets and liabilities, are one way to measure the District's financial health or position.

In the District-wide financial statements, the District's activities are divided into two categories:

- **Governmental activities** – Most of the District's basic services are included here, such as regular and special education, operation and maintenance of plant services, transportation and administration. Property taxes and state aid formula finance most of these activities.
- **Business-type activities** – The District charges fees to cover the cost of certain services it provides. The District's food service is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds and not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as repaying its long-term debts.

The District has three types of funds:

- **Governmental funds** – Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets can readily be converted into cash inflows and outflows and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the long-term focus of the District-wide statements, we provide additional information with the governmental funds statements to explain the relationship between them.
- **Proprietary funds** – Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the District-wide statements. The District uses internal service funds to report activities, which provide services to the District's other programs and activities. The District currently has one internal service fund for health and welfare benefits.

BLUE MOUNTAIN SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
FOR THE YEAR ENDED JUNE 30, 2020

- **Fiduciary funds** – The District is the trustee, or fiduciary, for assets that belong to others, such as the student activities fund. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All of the District's fiduciary activities are reported in a separate statement of fiduciary net assets. The District excludes these activities from the District-wide financial statements because it cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net assets. The District's combined net assets were less on June 30, 2020 when compared to the prior fiscal year. Total net position increased 4.48% during the year from \$(63,847,115) to \$(60,988,078) on June 30, 2020. (See Table A-1.)

Statement of Activities. The District's total revenues were \$45,660,474 for the year ended June 30, 2020. (See Table A-2.) Property taxes and other taxes levied for general purposes continue to account for most of the District's revenue in the amount of \$24,779,594 or 54.27% of total revenues. Another 23.69% or \$10,818,766 came from state formula aid, which includes basic education and student transportation subsidies. Approximately 18.41% or \$8,406,277 came from operating grants and contributions, with the remainder of \$1,655,837 or 3.63% coming from fees charged for services and other miscellaneous sources.

The total cost of all programs and services was \$42,801,437. (See Table A-2). The majority of the District's costs in the amount of \$26,915,441 or 62.88% were directly related to instruction. Student support services (transportation, food service, student activities) accounted for \$4,843,592 or 11.32%.

FOR THE YEAR ENDED JUNE 30, 2020

The cost of all District activities was \$42,801,437. (See Table A-2).

- Some of the cost was paid by the users of the District's programs (\$838,143).
- Federal and state governments subsidized certain programs with grants and contributions (\$8,406,277).
- Most of the District's costs (\$36,416,054), however, were paid for by District taxpayers and taxpayers of our state.
 - This portion of governmental activities was paid for with \$24,779,594 in taxes, \$10,818,766 of state aid based on the statewide education aid formula and with investment earnings and other general revenues.

Total Cost of Services for the District decreased by 9.82% while the Net cost of Services decreased by 12.10%.

BLUE MOUNTAIN SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
FOR THE YEAR ENDED JUNE 30, 2020

General Fund revenue increased by \$11,216,205 or 25.85%, from the previous year. Overall, tax collections have increased \$621,508 or 2.59%. Real estate tax revenue increased \$57,213 or 4.22%. There was an increase in the earned income tax collection from the prior year in the amount of \$93,516 or 3.50%. The occupation assessment tax remained the same at \$230 and income from this tax decreased by \$54,572 or 3.37% from the prior year.

Revenues from state sources represent an increase of \$30,562 or 0.18% from the previous year. The Basic education subsidy increased in the amount of \$147,970 or 1.82%. The Special education subsidy increased in the amount of \$40,794 or 2.52%. As some fixed expenditures increase for the district, the state reimburses school districts for a portion of those costs. The major expenses the state contributes money towards are transportation, which the reimbursement increased by \$101,754 or 5.95% over the prior year, retirement, which increased by \$144,850 or 4.83% and social security, which decreased by \$16,153 or 2.28%. Transportation revenues are driven by a state formula while social security and retirement are solely reimbursed on the size of the overall payroll. Revenues from federal sources represent a decrease of \$86,510 or 13.23%.

The following schedule presents a summary of General Fund expenditures and other financing uses:

	Year Ended 6/30/2019	Year Ended 6/30/2020	Increase (Decrease)	% Change
Salaries	\$16,956,638	\$17,557,721	\$601,083	3.54%

Total Expenditures	43,882,318	56,962,499	13,080,181	29.81%

Total General Fund expenditures increased \$13,080,181 or 29.81% from the previous year. This increase can be attributed to the fact that General Obligation Bond refunding was done this year and not the previous year.

GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the year, the District reviews expenditures and makes appropriate adjustments to cover unexpected expenditures in the annual operating budget due to increases in appropriations of significant budgeted costs.

The District's final budget for the General Fund anticipated that expenditures and other financing uses would be \$768,067 greater than revenues and other financing sources, with the balance of revenues to be taken from the unassigned fund balance. Actual results show that expenditures and other financing uses exceeded revenues and other financing sources by \$2,355,393. Contributing factors that caused the higher than expected expenditures were as follows: unanticipated architect fees of 693,102 due to the West Elementary Building issues, building rental of \$ 147,225 caused by relocating students to another facility, completion of the stadium project at a cost of \$ 651,163, district wide paving project at a cost of \$ 286,527, completion of the track upgrades for \$ 255,349, and higher than anticipated outside cyber/charter expenses.

CAPITAL PROJECTS FUND

The Capital Projects Fund was established in the 2008/2009 year to account for the proceeds of our \$20,000,000 bond issue which was borrowed to fund the Elementary East building renovation and improvement project.

CAPITAL ASSETS

The District invested \$87,157,941 in a broad range of capital assets, including school buildings, computer, and audio-visual equipment. (See Table A-8) Total depreciation expense for the year totaled \$1,915,430.

LONG-TERM LIABILITIES

At year-end, the District had \$27,465,000 in general obligation bonds, a decrease of 3.09% from last year. (See Table A-9). The implementation of GASB 45 required the District to account for estimated liabilities for future post employment benefits.

The total of \$(1,285,736) represents the difference between the estimated annual cost and the amount paid.

FACTORS BEARING ON THE DISTRICT'S FUTURE

The district is experiencing a slower growth phase in the residential housing market due to the economic downturn. The Blue Mountain School District is comprised of nine (9) boroughs and townships and is mainly a residential community with minimal support from commercial/manufacturing development.

The professional staff's collective bargaining agreement is in place through June 30, 2023. The service personnel have a collective bargaining agreement through June 30, 2021.

BLUE MOUNTAIN SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
FOR THE YEAR ENDED JUNE 30, 2020

Act 1 continues to pose an additional concern to the financial structure of the District. The administration will continue to monitor its contractual obligations and seek alternative revenue sources for maintaining the financial credibility of the Blue Mountain School District. Residential property tax is the mainstay of the district's tax base and with little hope for increase in state or federal funding more of the tax burden will be placed on the individual property owner. During 2019-2020 Real Estate Taxes comprised 34 percent of revenues collected.

Costs related to the District's contribution to the Pennsylvania School Employees Retirement System (PSERS) started to climb in 2010-2011 and are expected to increase over the next 10 years. Rates increased from 5.64 percent in 2010-2011 to 8.65 percent in 2011-2012, 12.36 percent in 2012-2013, 16.93 percent for 2013-2014, 21.40 percent for 2014-2015, 25.84 percent for 2015-2016, 30.03 percent for 2016-2017, 32.57 percent for 2017-2018, 33.43 percent for 2018-2019 and 34.29 for 2019-2020.

Rates are projected to increase annually every year until 2027-2028. This increase will have a major effect on the District's expenditures.

In 2011-2012 the District implemented a self-insured health plan. Self-insured health costs are difficult to forecast. To smooth the impact of these increases and decreases in costs, the District established a health insurance trust.

The District will continue to face budget challenges as federal, state and local revenue sources are projected to remain stagnant or decline.

BLUE MOUNTAIN SCHOOL DISTRICT
RECONCILIATION OF GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION (DEFICIT)

GOVERNMENTAL FUNDS

AS OF JUNE 30, 2020

TOTAL FUND BALANCES - GOVERNMENTAL FUNDS \$ 6,753,257

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds.

Cost of capital assets	86,975,898	
Less: accumulated depreciation	<u>(49,231,038)</u>	37,744,860

Long-term liabilities, including bonds payable, are not due and payable in the current period and are not reported as liabilities in the funds.

Bond payable	(27,465,000)	
Accrued compensated absences	(1,309,515)	
Other postemployment benefit obligation	(17,042,461)	
Other postemployment benefit obligation - PSERS	(2,358,647)	
Deferred outflows (inflows)	(7,467,756)	
Pension obligation	(52,523,404)	
Capital leases payable	<u>(558,721)</u>	(108,725,504)

Delinquent property taxes receivable will be collected this year, but are not available soon enough to pay for the current period's expenditures and are, therefore, deferred in the funds. 3,101,603

Governmental funds report debt issuance premiums and discounts as an other financing source or use at the time of issuance. Premiums, discounts, and deferred charges are reported as an unamortized asset or liability in the District-wide financial statements. (884,362)

Governmental funds do not report a liability for accrued interest until due and payable. (364,701)

Activities of internal service funds properly included within governmental activities. 2,767,663

BLUE MOUNTAIN SCHOOL DISTRICT

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND
CHANGES IN FUND BALANCES TO STATEMENT OF ACTIVITIES

GOVERNMENTAL FUNDS

FOR THE YEAR ENDED JUNE 30, 2020

TOTAL NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS	\$ (2,330,134)
Governmental funds report capital outlays as expenditures. In the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	(444,782)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	3,208,421
In the Statement of Activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due.	(52,812)
Because some property taxes will not be collected for several months after the District's year end, they are not considered as available revenues in the governmental funds.	166,079
Postemployment benefits are recognized when they are paid on the fund statements. With the implementation of GASB #45, an estimated liability for future benefits due will be phased in over several years. This amount represents the difference between the estimated annual cost and the amount paid.	2,142,309
Some expenses reported in the Statement of Activities, such as compensated absences, do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	(220,752)
An internal service fund is used by the District's management to charge the cost of health insurance to the individual funds. The net revenue of the internal service fund is recognized in governmental activities.	<u>324,783</u>

BLUE MOUNTAIN SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The Blue Mountain School District is governed by the Blue Mountain School District Board of Education, which has responsibility and control over all activities related to public school education within the District. The District receives funding from local, state, and federal government sources and must comply with all of the requirements of these funding source entities. Board members are elected by the public and have decision-making authority, the power to designate management, the ability to significantly influence operations, and the primary accountability for fiscal matters.

The financial statements of the Blue Mountain School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the District are described below.

In June 1999, the Governmental Accounting Standards Board (GASB) approved Statement No. 34, Basic Financial Statements-and Management's Discussion and Analysis -for State and Local Governments.

The financial statements include:

- Management's Discussion and Analysis (MD&A), providing an analysis of the District's overall financial position and results of operations.
- Financial statements prepared using full-accrual accounting for all of the District's activities.
- A change in the fund financial statements to focus on major funds.

The District has implemented the provisions of Statement No. 34 as well as other new standards related to note disclosure, non-exchange transactions and certain liabilities and expenditures.

REPORTING ENTITY

As required by GAAP, these financial statements present the District and its component unit, Blue Mountain Insurance Trust Employee Benefit Plan, for which the District is considered to be financially accountable. The District is not a component unit of any other primary government.

The Blue Mountain Insurance Trust Employee Benefit Plan is a nonprofit organization established to provide health and welfare benefits to active and retired District employees. The Insurance Trust exclusively services the District, and is presented as an internal service fund of the District.

BASIS OF PRESENTATION

District-wide statements - The statement of net assets and the statement of activities provide information about the financial activities of the overall district, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the governmental and business-type activities of the District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-Type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for each business-type activity of the District and for each function of the District's governmental activities.

- Direct Expenses are those that are clearly identifiable with a specific program.
- Program revenues include 1) charges to students or recipients who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function.
- Taxes and other items not properly included among program revenues are reported as general revenues.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

BASIS OF PRESENTATION - continued

Depreciation expense can be specifically identified by function and is included in the direct expenses of each function. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities. The effect of interfund activity has been removed from these statements.

Fund Financial Statements - The fund financial statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category - *governmental, proprietary and fiduciary*-are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds.

The Internal Service Fund is presented in the proprietary fund financial statements. Because the principal user of the internal services are the District's governmental activities, the financial statement of the internal service fund is consolidated into the governmental column when presented in the government-wide financial statements. The cost of these services is reported in the appropriate functional activity.

Proprietary fund operating revenues, such as charges for services result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies and investment earnings, result from non-exchange transactions or ancillary activities. Enterprise fund operating revenues are related to charges for food in the District's cafeteria. The primary non-operating revenues are federal nutrition program grants and commodities received from the U.S. Department of Agriculture.

The fiduciary funds are presented in the fiduciary fund financial statements by type (agency). Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the District, these funds are not incorporated into the District-wide statements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

BASIS OF PRESENTATION - continued

The District reports the following major governmental funds:

General Fund - The General Fund is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

Capital Reserve Fund - The Capital Reserve Fund is used to account for maintenance of facilities, capital improvements, replacement and additions to public works and improvements, purchase of school buses, and for debt service incurred for capital improvements.

Capital Projects Fund - The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities.

The District reports the following major proprietary fund types:

Food Service Fund - The Food Service Fund is used to account for all financial transactions related to the food service operation.

Internal Service Fund - The District has a single internal service fund, which accounts for the activities of the District's health and welfare benefits.

Other fund types:

Agency Funds - These funds account for assets held by the District as an agent for various student groups and clubs.

Private Purpose Trust Fund - These funds account for assets held by the District as an agent for an outside party, who has placed restrictions on the use of the fund's assets.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

BASIS OF ACCOUNTING

The district-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term liabilities are reported as other financing sources.

All business-type activities and enterprise funds of the district follow FASB Statements and Interpretations on or before November 30, 1989, Accounting Principles Board Opinions, and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements.

BUDGETING

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted for the general and special revenue funds. Project-length financial plans are used for capital projects funds. All unencumbered budget appropriations, except capital projects, lapse at the end of each fiscal year.

At the fund level, actual expenditures cannot exceed budgeted appropriations, however, with proper approval by the school board, budgetary transfers between account can be made. The budgeted financial statements represented in this report reflect the final budget authorization, including all transfers.

DEPOSITS AND INVESTMENTS

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments with a maturity of one year or less at the time of purchase are recorded at cost or amortized cost. Those with a maturity of greater than one year are reported at fair value. Changes in the fair value of investments are recorded as investment income.

TAXES ASSESSED

The following is a listing of the taxes assessed along with their respective tax levy:

<u>Tax Type</u>	<u>Millage/Rate</u>	<u>Assessed Valuation</u>
Real Estate - Schuykill County	39.401	\$ 19,745,538

TAXES ASSESSED - continued

The following is the tax calendar showing levy date, payment periods and delinquent dates for the above listed taxes:

Levy date	July 1
Discount (2%) payment period	July 1 to August 31
Face payment period	September 1 to October 31
Penalty (10%) payment period	November 1 to December 31
Delinquent date	December 31

Taxes which remain unpaid are classified as delinquent taxes receivable. Revenue from these delinquent taxes that is not collected within 60 days of year-end is deferred in the fund based financial statements because it is not known to be available to finance the operations of the District in the current year. An allowance has been established to recognize the uncollectible portion.

INVENTORY

Inventories are recorded using the consumption method of accounting and consist of purchased food, supplies, and surplus commodities received from the federal government. Food and supply purchases are recorded at invoice cost, computed on a first-in, first-out method. Surplus commodities are stated at standard costs, as determined by the Department of Agriculture. In the fund based financial statements, commodities received are recorded as deferred revenue until consumed.

CAPITAL ASSETS

Capital assets, which include land, buildings and improvements, and furniture and equipment, are reported in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$1,500. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction is not capitalized.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

CAPITAL ASSETS - continued

Depreciation is computed using the straight-Line method over the following useful lives:

<u>Description</u>	<u>Useful Life</u>
Land	Not Depreciated
Land Improvements	20 years
Buildings and Improvements	15-30 years
Furniture and Equipment	5-15 years
Vehicles	3-15 years

COMPENSATED ABSENCES

Compensated absences are those for which employees receive pay. A liability is recorded through the use of estimates, which apply historical data to current factors. The District maintains records of unused absences and applies current and/or contracted compensation rates to the various types of compensated absences. Sick leave is recorded using the termination payment method, which has no current maximum per employee. The District allows only restricted sabbatical leave and therefore, has no recorded liability in advance of the sabbatical. The District also records estimated vested retirement incentives for employees.

ACCRUED LIABILITIES AND LONG-TERM OBLIGATIONS

In government-wide financial statements as well as proprietary fund financial statements, all accrued liabilities and long-term debt are reported as liabilities in the statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

RESTRICTED ASSETS

Restricted assets are cash and cash equivalents whose use is limited by legal requirements such as a bond indenture. Restricted assets are reported only in the District-wide financial statements.

FUND EQUITY

In the fund financial statements, governmental funds report fund balance in accordance with GASB No. 54 (See Note 9).

NET ASSETS

Net assets represent the difference between assets and liabilities in the District-wide financial statements. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets.

OTHER POSTEMPLOYMENT BENEFIT OBLIGATIONS

During the year ended June 30, 2020, the District adopted the provisions of GASB Statement No. 74, "*Financial Reporting for Postemployment Benefits Plan other than Pension Plan*" and GASB Statement No. 75, "*Accounting and Financial Reporting for Post Employment Benefits Other than Pensions.*" This statement provides the accounting and reporting requirements for the benefit plans as well as require that public sector employers accrue the cost of any postretirement healthcare or similar benefits (OPEB) they may offer to employees. For the purpose of the financial statements, GASB Statement No. 75 requires that governments account for and report the annual cost of OPEB and the outstanding obligations and commitments related to OPEB in the same manner as they currently do for pensions. Accordingly, the District's net OPEB obligation for 2020 was reported on the statement of net assets.

NOTE 2 - DEPOSITS AND INVESTMENTS:

DEPOSITS

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned. The deposit policy of the school district adheres to state statutes and prudent business practice. Cash equivalents are defined as short-term, highly liquid investments that are readily convertible to known amounts of cash and include investments with original maturities of three months or less. Cash and cash equivalents consist of demand deposits at various financial institutions.

Under Section 440.1 of the Public School Code of 1949, as amended, the District is permitted to:

Deposit in savings accounts or time deposits or share accounts of institutions insured by the Federal Deposit Insurance Corporation to the extent that such accounts are so insured and, for any amounts above the insured maximum, provided that approved collateral as provided by law is pledged by the depository.

At June 30, 2020, the carrying amount of the District's deposits were \$10,746,913 and the bank balance was \$10,840,083. Of the bank balance, \$254,636. was covered by federal depository insurance coverage, and \$10,585,447. was exposed to custodial credit risk because it was uninsured and the collateral held by the depository's agent was not in the District's name.

NOTE 5 - RISK MANAGEMENT AND LITIGATION:

This District is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintains coverage from commercial insurance companies to cover these risks of loss.

On November 1, 1981, the District established the Blue Mountain Insurance Trust Employee Benefit Plan (the Trust) for the purpose of providing health and welfare benefits to active and retired District employees. The District has combined the Trust as a component unit and recorded its results of operation on Internal Service Fund. Interfund premiums have been reported as quasi-external transaction.

GRANT PROGRAMS

The District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable at June 30, 2020 may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

PLAN DESCRIPTION

The Blue Mountain School District Retiree Health Care Plan (the Plan) is a single-employer defined benefit healthcare plan administered by the School Board. The Plan provides postemployment healthcare benefits to eligible retirees of the District in accordance with the various labor contracts and personnel policies. Inasmuch as the Plan has no assets, reporting another employee benefit trust fund in the accompanying financial statements is not required nor was a separate or stand-alone report issued.

FUNDING POLICY

The contribution requirements of plan members and the District are established and may be amended by the School Board, subject to applicable labor contracts and benefit plans. Plan members are required to pay \$100. per month towards the premium for medical, drugs, dental, and vision. The District pays the remaining premium for the member and remaining premium for member and spouse for those under Act 93 Agreement. The District also pays the full premium for life insurance in varying amounts. The length of benefits coverage ranges from five years or from date of retirement to age 65.

For 2020, the District made no contributions and instead elected to continue funding on a *pay-as-you-go* basis, which amounted to \$625,174. for 2020. These costs are recognized as an expense when claims or premiums are paid.

ACTUARIAL METHODS AND ASSUMPTIONS

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of potential occurrences of certain events in the future. Examples include assumption about future employment, mortality, healthcare costs trends, inflation, etc. Amounts determined regarding the funded status of the plan and the annual required contributions of the District are subject to constant changes and modifications as actual results are compared with past expectations and new estimates and assumptions are formed regarding the future. Projections of retiree benefits for financial reporting purposes are based on current plan activities as it is handled by the District and the benefits are received by the eligible plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the District and plan members. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2019 actuarial valuation, the individual entry age normal actuarial cost method was used. There were also merit and seniority salary rate increase assumptions taken into consideration and those are detailed in the actuarial study and are based on age. There was also an inflationary rate assumption factored into the calculation. Per the actuarial study, the assumed rate ranges from 10% in the short-term to 5% in the long-term for health care related costs. The UAAL is being amortized as a level percentage of active member payroll over a period of 20 years.

NOTE 7 – OPERATING LEASES:

The District leases copiers and mailing system under various operating leases. The total monthly lease payments are for a five year term with leases beginning January 2008 through June 2023. The District has the option to purchase the copiers for fair market value, determined by the lessor, at the end of the lease or the option to continue the lease on a month to month basis, or return the equipment.

NOTE 8 - GASB STATEMENT NO. 54:

On June 15, 2010, the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 54 (Fund Balance Reporting and Governmental Fund Type Definitions). This Statement defines the different types of fund balances that a governmental entity must use for financial reporting purposes.

GASB-54 establishes criteria for classifying fund balances into specifically defined classifications that should be based on hierarchy that reflects the extent to which the government is bound to honor constraints on how those funds can be spent. Established classifications are as follows:

Nonspendable – Amounts that cannot be spend because they are either in a nonspendable form or are legally or contractually required to be maintained intact.

Restricted – Amounts constrained to be used for a specific purpose stipulated by constitution, external resource providers or through enabling legislation.

Committed – Amounts constrained to be used for a specific purpose determined by a formal action of the School District Board of Directors (the district's highest level of decision-making authority).

Assigned – Amounts intended to be used for a specific purpose by the finance committee or an individual authorized by the governing body.

BLUE MOUNTAIN SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS - continued
FOR THE YEAR ENDED JUNE 30, 2020

NOTE 8 - GASB STATEMENT NO. 54 – continued

Unassigned – Residual amounts available for any purpose not contained in other classifications.

The District assigned fund balance is fund balance reporting occurring by the School Board Administration Authority, under the direction of the Business Manager.

ORDER OF FUND BALANCE SPENDING POLICY

The District's policy is to apply expenditures against nonspendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance at the end of the fiscal year by adjusting entries.

First, nonspendable fund balances are determined. Then, restricted fund balances for the nongeneral funds are classified as restricted fund balance.

It is possible for the nongeneral funds to have negative unassigned fund balance when nonspendable amounts plus the restricted fund balances for specific purpose amounts exceed the positive fund balance for the nongeneral fund.

NOTE 9 - RELATED ORGANIZATIONS:

Not included in the School's District financial statements are any Parent-Teacher Associations (PTA), Parent-Teacher Organizations (PTO) and athletic and band booster clubs. These agencies provide services to students and employees of the School District, but are separate legal entities having sufficient autonomy in the management of their own affairs to distinguish them as separate from the administrative organization of the School District. The School District does not account for these entities as component units or joint ventures; it does not maintain an ongoing financial interest or have responsibility for these entities.

NOTE 10 - PRIOR PERIOD ADJUSTMENT:

CORRECTION OF AN ERROR

During the year ended June 30, 2020 the District determined it had not allocated the Districts' Pension and OPEB assets and liabilities between its Governmental and Business-Type Funds as required by GASB 68 in its Entity-Wide Statement of Net Position (Deficit). During the current year, the District, (with which we concur) recorded the necessary adjustments which decreased its beginning Governmental Activities Unrestricted deficit by \$1,899,079 and increased its beginning Business-Type Activities Unrestricted deficit by (\$1,899,079).

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

PENSIONS

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms investments are reported at fair value.

General Information about the Pension Plan

PLAN DESCRIPTION

PSERS is a governmental cost-sharing, multi-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report than can be obtained at www.psers.state.pa.us.

BENEFITS PROVIDED

PSERS provides retirement, disability, and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least 1 year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two new membership classes, Membership Class T-E (Class T-3) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum of 3 years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service. Benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service. For members whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

NOTE 11 – PENSION – continued

BENEFITS PROVIDED - continued

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

CONTRIBUTIONS

Member Contributions:

Active members who joined the System prior to July 22, 1983, contribute at 5.25% (Membership Class T-C) or at 6.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System on or after July 22, 1983, and who were active or inactive as of July 1, 2001, contribute at 6.25% (Membership Class T-C) or at 7.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System after June 30, 2001 and before July 1, 2011, contribute at 7.50% (automatic Membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with service rendered on or after January 1, 2002.

Members who joined the System after June 30, 2011, automatically contributed at the Membership Class T-E rate of 7.50% (base rate) of the member's qualifying compensation. All new hires after June 30, 2011, who elected Class T-F membership, contribute at 10.30% (base rate) of the member's qualifying compensation. Membership Class T-E and Class T-F are affected by a "shared risk" provision in Act 120 of 2010 that in future fiscal years could cause the Membership Class T-E contribution rate to fluctuate between 7.50% and 9.50% and Membership Class T-F contribution rate to fluctuate between 10.30% and 12.30%.

Employer Contributions:

The school district's contractually required contribution rate for fiscal year ended June 30, 2020 was 33.43% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the District were \$5,123,000. for the year ended June 30, 2020.

PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS

At June 30, 2020, the District reported a liability of \$53,519,000. for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2018 to June 30, 2019. The District's proportion of the net pension liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2020, the District proportion was .1144%, which was a decrease of .0120% from its proportion measured as of June 30, 2019.

For the year ended June 30, 2020, the District recognized pension expense of \$621,000. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>

The total pension liability at June 30, 2019 was determined by rolling forward the System's total pension liability at June 30, 2018 to June 30, 2019 using the following actuarial assumptions applied to all periods included in the measurement:

- Actuarial cost method – Entry Age Normal – level % of pay.
- Investment return – 7.25%, includes inflation at 2.75%
- Salary Growth – Effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.
- Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

ACTUARIAL ASSUMPTIONS – continued

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The pension plan’s policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension.

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global public equity	20.0%	5.6%
Fixed income	36.0%	1.9%

DISCOUNT RATE

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

SENSITIVITY OF THE DISTRICT'S PROPORTIONATE SHARE OF THE NET PENSION LIABILITY TO CHANGES IN THE DISCOUNT RATE

The following presents the net pension liability, calculated using the discount rate of 7.25%, as well as what the net position liability would be if it were calculated using a discount rate that is one percentage point lower (6.25%) or one percentage point higher (8.25%) than the current rate:

	1% Decrease 6.25%	Current Discount Rate 7.25%	1% Increase 8.25%

General Information about the Health Insurance Premium Assistance Program

Health Insurance Premium Assistance Program

The System provides Premium Assistance which, is a governmental cost sharing, multiple-employer other postemployment benefit plan (OPEB) for all eligible retirees who qualify and elect to participate. Employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Effective January 1, 2002 under the provisions of Act 9 of 2001, participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS’ Health Options Program. As of June 30, 2019, there were no assumed future benefit increases to participating eligible retirees.

Premium Assistance Eligibility Criteria

Retirees of the System can participate in the Premium Assistance program if they satisfy the following criteria:

- Have 24 ½ or more years of service, or
- Are a disability retiree, or
- Have 15 or more years of service and retired after reaching superannuation age, and
- Participate in the HOP or employer-sponsored health insurance program.

3. Actuarial Assumptions

The Total OPEB Liability as of June 30, 2019, was determined by rolling forward the System’s Total OPEB Liability as of June 30, 2018 to June 30, 2019 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method - Entry Age Normal - level % of pay.
 - Investment return - 2.79% - S&P 20 Year Municipal Bond Rate.
 - Salary growth - Effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.
 - Premium Assistance reimbursement is capped at \$1,200 per year.
 - Assumed Healthcare cost trends were applied to retirees with less than \$1,200 in Premium assistance per year.
 - Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS’ experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.
-
- Participation rate:
 - Eligible retirees will elect to participate Pre age 65 at 50%
 - Eligible retirees will elect to participate Post age 65 at 70%

The following assumptions were used to determine the contribution rate:

- The results of the actuarial valuation as of June 30, 2016 determined the employer contribution rate for fiscal year 2019.
- Cost Method: Amount necessary to assure solvency of Premium Assistance through the third fiscal year after the valuation date.
- Asset valuation method: Market Value.
- Participation rate: 63% of eligible retirees are assumed to elect premium Assistance.
- Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS’ experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

3. Actuarial Assumptions - continued

Investments consist primarily of short term assets designed to protect the principal of the plan assets. The expected rate of return on OPEB plan investments was determined using the OPEB asset allocation policy and best estimates of geometric real rates of return for each asset class.

The OPEB plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Under the program, as defined in the retirement code employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year.

<u>OPEB - Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Cash	13.2%	0.2%
US Core Fixed Income	83.1%	1.0%
Non-US Developed Fixed	3.7%	0.0%
	<u>100.0%</u>	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2019.

Discount rate

The discount rate used to measure the Total OPEB Liability was 2.79%. Under the plan's funding policy, contributions are structured for short term funding of Premium Assistance. The funding policy sets contribution rates necessary to assure solvency of Premium Assistance through the third fiscal year after the actuarial valuation date. The Premium Assistance account is funded to establish reserves that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Due to the short term funding policy, the OPEB plan's fiduciary net position was not projected to be sufficient to meet projected future benefit payments, therefore the plan is considered a "pay-as-you-go" plan. A discount rate of 2.98% which represents the S&P 20 year Municipal Bond Rate at June 30, 2019, was applied to all projected benefit payments to measure the total OPEB liability.

Sensitivity of the System Net OPEB Liability to Change in Healthcare Cost Trend Rates

Healthcare cost trends were applied to retirees receiving less than \$1,200 in annual Premium Assistance. As of June 30, 2019, retirees Premium Assistance benefits are not subject to future healthcare cost increases. The annual Premium Assistance reimbursement for qualifying retirees is capped at a maximum of \$1,200. As of June 30, 2019, 93,339 retirees were receiving the maximum amount allowed of \$1,200 per year. As of June 30, 2019, 788 members were receiving less than the maximum amount allowed of \$1,200 per year. The actual number of retirees receiving less than the \$1,200 per year cap is a small percentage of the total population and has a minimal impact on Healthcare Cost Trends as depicted below.

The following presents the System net OPEB liability for June 30, 2019, calculated using current Healthcare cost trends as well as what the System net OPEB liability would be if it health cost trends were 1-percentage point lower or 1-percentage point higher than the current rate:

BLUE MOUNTAIN SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS - continued
FOR THE YEAR ENDED JUNE 30, 2020

NOTE 13 – DEFEASED DEBT:

During July 2019, Blue Mountain School District issued General Obligation Note, Series of 2019, in the amount of \$9,120,000 to refinance the District's General Obligation Bonds, Series of 2014AA and the Series of 2017. As a result of the refunding, the District reduced its total debt service requirement by \$630,000., which resulted in an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$273,757.

NOTE 14 – CORONAVIRUS (COVID-19) PANDEMIC DECLARATION:

In March 2020, the World Health Organization declared the outbreak of a novel coronavirus (COVID-19) as a pandemic which continues to spread throughout the United States. On March 6, 2020 Pennsylvania Governor Tom Wolfe proclaimed the existence of a disaster emergency throughout the Commonwealth of Pennsylvania. The duration of the business disruption and related financial impact cannot be reasonably estimated at this time but may materially affect our ability to operate our business and result in additional costs. The extent to which this virus pandemic may impact our operating results, financial condition, and cash flows will depend on future developments, which are highly uncertain and cannot be predicted at the date of this report, including new information that may emerge concerning the severity of the coronavirus and steps taken to contain the coronavirus or treat its impact, among others.

REQUIRED SUPPLEMENTAL INFORMATION

BLUE MOUNTAIN SCHOOL DISTRICT
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED JUNE 30, 2020

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES:

The accompanying Schedule of Expenditures of Federal Awards is prepared on the accrual basis of accounting.

NOTE 2 - COMMODITIES:

The beginning and ending deferred income figures listed represent the beginning and ending commodities inventories in the Cafeteria Fund. These commodities are received through the State from the U.S. Department of Agriculture. The commodities are valued at amounts assigned to the various items by the U.S. Department of Agriculture when the commodities are offered

NOTE 3 - INDIRECT COSTS:

The District did not charge any indirect costs to any of the federal grants and programs during this fiscal year. As such, the District did not use the 10% de minimis cost rate.

NOTE 4 - CLUSTER PROGRAMS:

The following CFDA's have been deemed a cluster of programs by the Office of Management and Budget and, therefore, are treated as one program in determining the major programs to be audited.
